# ALFOMBRAS PARA VIVIRLAS

UNIVERSAL XXI

Ahora, en Universal XXI, también fabricamos su alfombra a medida con la calidad y profesionalidad que nos caracteriza.

La elección del tipo de alfombra adecuada depende de muchos factores como: el lugar donde irá colocada, el uso que le vamos a dar, el espacio que disponemos y el tipo de decoración que tengamos, por ello, le contamos algunos sencillos pasos a tener en cuenta a la hora de elegir su alfombra: tamaño, color, forma y acabado.

Además, en Universal XXI le ofrecemos un asesoramiento completo para crear juntos la alfombra que mejor se adapte a sus necesidades.

## RUGS TO ENJOY

Nowadays, in Universal XXI, we also make your tailor-made rug with the quality and professionalism that characterizes us.

Choosing the suitable rug type depends on many factors such as: the place where it will be laid, the use we will give it, the space available, and the type of decoration we have. For that reason, we give you four simple steps to bear in mind when choosing your rug: size, colour, form, and type of finishing. Besides, in Universal XXI we offer you a complete advice to create together the rug that better adapts to your needs.

1

## ELIGE UN TAMAÑO CHOOSE A SIZE

Fabricamos cualquier tamaño de alfombra, no obstante, les mostramos los ejemplos más comunes de colocación de una alfombra respecto a la estancia donde va a estar ubicada para así conseguir la medida más aproximada que estamos buscando.

We make any rug size. However, we show you the most common examples on how to place a rug regarding the location to obtain the most approximate size.

### Salón / Living room

Alfombra un poco más ancha que el sofá.  
Rug wider than the sofa.

Alfombra con la misma anchura que el sofá.  
Rug as wide as the sofa.

Alfombra debajo de las patas delanteras del sofá y resto de muebles.  
Rug under the front legs of the sofa and the rest of furniture.

Opción recomendable para salones muy amplios.  
Recommendable option for large living rooms.

### Dormitorio / Bedroom

Alfombras a pie de cama, su anchura nos debería permitir dar un par de pasos al levantarnos de la cama.  
Bedside rugs, their width should allow us to take couple of steps when we get up.

Alfombra en el frontal de la cama.  
Rug at the front of the bed.

Alfombra que ocupe toda la base de la cama incluidas las mesillas de noche.  
Rug covering the whole base of the bed including the nightstands.

### Comedor / Dining room

Debemos tener en cuenta que tenemos que dejar el espacio suficiente para que al mover las sillas, éstas no sobresalgan de la alfombra.  
We must bear in mind to leave the enough space so that when moving the chairs, these do not stand out of the rug.

### Pasillo / Hall

Lo ideal a la hora de colocar una alfombra en un pasillo es que esté unos 10-15 cm de la pared por cada lado del pasillo.  
When placing a rug in a hall, it would be ideal to leave 10-15 cm between the wall and the rug in each side of the hall.

2

## ELIGE UN COLOR CHOOSE A COLOUR

El color de la alfombra dependerá tanto de la decoración como del tránsito del lugar donde la coloquemos, teniendo en cuenta que los colores más claros proporcionan una mayor amplitud a la estancia. En Universal XXI, le ofrecemos diferentes colecciones a elegir, cada una de ellas con una amplia variedad de colores y acabados.

The colour depends not only on the decoration but also on the transit the location has, bearing in mind that the lightest colours provider greater spaciousness to the room. In Universal XXI we offer you different collections to choose, each of them with a wide variety of colours and finishing.

## ACABADO OPCIONAL OPTIONAL FINISHING

Las imágenes mostradas se corresponden con el acabado opcional con cinta, el acabado estándar es con ribete.

Pictures show the optional finishing with ribbon. The standard one is overlocked.

# Cuidados de la alfombra

Carpet care

# Especificaciones técnicas

UNIVERSAL XXI, S.L. se reserva el derecho de modificar la composición de la trama (parte posterior) de la alfombra en función de la disponibilidad de materias primas. El peso total puede variar. Valor nominal de la alfombra está garantizado y se mantendrá sin cambios.

La calidad de las alfombras está garantizada. Al igual que con todos los productos textiles podrá haber una variación en el tono de un lote a otro. Todas las muestras suministradas están tan cerca de una representación de la alfombra real como el proceso de producción lo permita. El color exacto entre lotes de tinte diferentes no puede ser garantizado.

# Technical specifications

UNIVERSAL XXI, S.L. reserves the right to change the composition of the jute (backing) depending on the availability of raw materials. Total weight can vary. Nominal value of the rug is guaranteed and will remain unchanged.

Rug quality is guaranteed. As with all textile products there will be a variance in shade from batch to batch. Any samples supplied are as close as a representation to the real rug as the production process will allow. An exact colour matched between different dye batches cannot be guaranteed.

# Limpieza y conservación

Se recomienda la limpieza a fondo, como mínimo, una vez al año. Puede utilizarse una tela de algodón de tal forma que sea cual fuese el líquido empleado como producto de limpieza, se transmita sólo la humedad a la alfombra, procurando no empaparla nunca. Se dejará secar durante varias horas. Es importante que la alfombra no sea pisada hasta que una vez seca, se cepille. Para la limpieza deberán emplearse detergentes neutros, se aconsejan los de espuma seca.

Productos que no se deben emplear:

- **BENCINA: peligro de incendio.**
- **AMONIACO LÍQUIDO: alteración de los colores.**
- **JABÓN y otros detergentes alcalinos.**

Cuando se manche la alfombra conviene extraer lo más rápido posible el líquido no absorbido. Se utilizará una tela de algodón absorbente debajo de la misma. Se aconseja durante los primeros meses un ligero cepillado con una escoba blanda (nunca con cuerpos duros). Durante esta limpieza puede que la alfombra pierda algo de pelusa, como consecuencia natural del obligado tundido de la misma durante el proceso de fabricación, o puede que algunos hilos sobresalgan de la superficie del pelo, en este caso es importante no tirar de ellos sino cortarlos con unas tijeras dejándolos al mismo nivel que el resto de pelos. Después, se verificará un barrido diario siempre en la dirección del pelo y una pasada de aspirador semanal no muy fuerte.

**PRIMEROS 2 MESES: solo ligero cepillado o barrido.**

**MESES SUCESIVOS: cepillado + aspirador**

**LIMPIEZA ANUAL: cepillado + aspirador + producto limpieza + secado + cepillado + aspirador.**

# Cleaning & conservation

We recommend a deep cleaning at least once a year. A cotton cloth can be used in such a way that whatever liquid is employed as a cleaning agent, only moisture is transmitted to the rug, avoiding always soaking it. It should be left to dry for several hours. It is important not to walk on the rug until it is totally dry and brushed. Neutral detergents should be used for cleaning - dry foam ones are recommended.

Should never be used

**Petrol: because of fire hazard.**

**Liquid ammonia: because it damages the colours.**

**Soap: because of its alkaline nature.**

**Alkaline detergents: because the rug is attacked.**

When staining the rug, the liquid not absorbed should be removed as quickly as possible. An absorbent cotton cloth or blotting paper should be used to remove as much spilled liquid as possible. If the stain is deep and permeates the rug, we recommend placing an absorbent material under it. During the first months, it is recommended a slight brushing with a soft broom (never a hard one). It will be noted during this cleaning the carpet loses some lint: it is a natural consequence of the forced shearing during the manufacturing process, so it is expected to occur. Some strands may protrude from the surface. In that case, do not pull them, cut them with scissors and leave them at the same level as the rest of fur surface.

Then it should be daily swept towards fur direction and slightly hoovered once a week. During the first two months, it is recommended not to use a hoover or any cleaning product.

**First two months: only slightly brushing or sweeping.**

**Following months: brushing-hoovering**

**After one year: brushing, hoovering, applying a cleaning product, drying, brushing, and hoovering.**
